# Why with us?

Scientific Federation Conferences is global covering Life Sciences, Physical Science & Engineering, Social Sciences and Health Sciences Conferences. We are currently focused solely on Medical related Events, Conferences and Innovations. Our main emphasis is on managing meetings, events and conferences for the scientific research and medical fields. We have brought together a multidisciplinary team, composed of scientist from various reputed organizations and universities across the globe.

The Company of Scientific Federation Conferences is a self-funded dedicated to supporting and inspiring the Health care community. We've built a wealth of knowledge in medical and scientific meeting planning and understand how to meet the complicated and specialized requirements scientific research events often demand. We bring together specialized knowledge on handling conferences with latest technology and effective communication to ensure excellence. We are committed to ensure that the changing demands of health care system are understood and the best results are delivered.

## Other Salient Features Comprehend

- Publishing of the accepted abstracts in our inordinately indexed journals
- Each of which will be labeled with a Digital Object Identification Number (DOI)
- Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.
- Career Guidance Workshops for students and early career researchers

# About Destination Porto, Portugal

Overlooking the Douro River, Porto is one of the most ancient European cities, stemming from the northern bank of the river during the Middle Ages. One of the most significant aspects of Porto and its historical centre is its surrounding landscape, the steep river banks providing a dramatic setting for old town. Both the streets next to the river and the surrounding countryside have been classified as a World Heritage sites by UNESCO. Discovering Porto is full of surprises: beautifully cobbled streets and typical shops retain the feel of a bygone era whilst contemporary architecture jumps out in surprising places.

Porto's best-known export: delicious Port wine (Vinho do Porto). Portugal still uses many grape varieties that are not used anywhere else in the world, and produces a huge variety of table and fortified wines which are original and little known. A boat trip up the Douro river allows you to see exactly where the flavors of the wine come from and to follow the trip the grapes used to make from the vineyards high up in Alto Douro to the cellars in Vila Nova de Gaia. Here you can taste the port and see the barrels where the wine is aged
