Mark Your Calendars for **HIV AIDS 2020 | London**

It is our pleasure to invite you to join us at the 2nd Edition of International Conference on HIV-AIDS, STD's & STI's. The HIV-AIDS 2020 Conference will be held **March 16-17, 2020** in beautiful City at **Orlando, Florida, USA**.

The HIV-AIDS 2020 includes 40+ plenary lectures, dedicated poster sessions and interactive elements. The medium-large size of the conference makes it an excellent forum to share new data, and to network with colleagues and speakers.

The HIV-AIDS 2020 conference runs for 2 days, from Monday 16 to Tuesday 17 March 2020 and it will deliver an outstanding scientific program, meaningful networking opportunities and memorable cultural experiences to delegates from 60+ Countries.

The HIV-AIDS 2020 conference motto is to bring all the scientists, academia, industry, research scholars, professors and renowned personalities, students, and professionals in the fields of HIV-AIDS and the people in general, where they can discuss and debate the technological advancements and emerging research trends, discoveries and inventions in the fields of HIV-AIDS, STI & STD's. The Purpose of this non-profit organization is the advancement of HIV, AIDS, and related Infections and diseases in all its phases.

*We look forward to welcoming you to **Orlando!***

Meeting objectives:

- To engage, inspire, innovate and advocate
- To put focus on global HIV epidemic hotspots and scale up efforts within Key Affected Populations
- Building innovative partnerships with businesses, community, government, and science to strengthen HIV prevention and treatment efforts
- Bringing together the world's experts to advance knowledge about HIV, present new research findings, and promote and enhance scientific and community collaborations around the world
- Strengthen HIV prevention research
- Address HIV vulnerability and determinants of disease progression
- Understand that there are limited hypnotic medication studies in children.
- Appraise your office's current immunization practice and communication strategy.
- Understand that there are limited hypnotic medication studies in children.
- Review pharmacology of commonly used off label medications.

SciTech Conferences is global covering Life Sciences, Physical Science & Engineering, Social Sciences and Health Sciences Conferences. We are currently focused solely on Medical related Events, Conferences and Innovations. Our main emphasis is on managing meetings, events and conferences for the scientific research and medical fields. We have brought together a multidisciplinary team, composed of scientist from various reputed organizations and universities across the globe.

The Company of SciTech Conferences is a self-funded dedicated to supporting and inspiring the Health care community. We've built a wealth of knowledge in medical and scientific meeting planning and understand how to meet the complicated and specialized requirements scientific research events often demand. We bring together specialized knowledge on handling conferences with latest technology and effective communication to ensure excellence. We are committed to ensure that the changing demands of health care system are understood and the best results are delivered.

Other salient features comprehend:

- Publishing of the accepted abstracts in our inordinately indexed journals
- Each of which will be labelled with a Digital Object Identification Number (DOI)
- Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.
- Career Guidance Workshops for students and early career researchers

08.00-9:00	Conference Enrollment
09.00-09.15	Welcome Note

Exhibitors can reach the stall @ 9:00 AM simultaneously with sessions

Keynote

09.15-10.45	Keynote 1 Keynote 2 Keynote 3

HIV-AIDS 2020

Orlando, Florida, is a city of approximately 200,000 people located in east/central Florida. Orlando is the sixth largest city in Florida. The Orlando metropolitan area is home to nearly 1.8 million people. Orlando is the undisputed theme-park capital of the United States. It is home to the world famous Walt Disney World Resort, as well as numerous other theme parks. Orlando is also only 45 minutes from Port Canaveral, a major cruise ship port that plays host to at least three major cruise lines and over ten different cruise ships, including the Disney Cruise Line's two ships. As of 2006, Orlando is also home to three Fortune 1000 company headquarters. Orlando is ranked as the 36th "Most Fun U.S City" in a survey conducted in 2003 by Cranium Inc. Factors taken into account in the ranking include: the number of sports teams, restaurants, dance performances, toy stores, the amount of a city's budget that is spent on recreation, and other factors. Orlando is also consistently ranked as one of the top tourist destinations in the world. Florida continues to rank third in the nation in the cumulative number of HIV cases (126,581 in 2012) and second in the nation in the cumulative number of HIV, AIDS and Immunity cases (49,058 in 2012). There are over 12,500 individuals living with HIV in Central Florida. 1 in 4 new cases of AIDS are among those ages 13 – 24. Approximately 20% of individuals with HIV and AIDS are unaware of their diagnosis. Of those persons in Florida, 49% are black, 29% are white and 20% are Hispanic. Men represent 70% of the cases. Persons over the age of 45 years represent 60%. In Florida, 15% of all new infections reported among females in 2012 were under the age of 25. Florida Department of Health estimates that there are 130,000 individuals with HIV related in Florida. We SciTech Conferences welcome invite all the participants from all over the world to attend 2nd International Conference on HIV AIDS. which is slated at March 16 – 17, 2020. Orlando, Florida, USA
