The country is likely to see a nearly 3 percent annual increase in the number of hospital beds required, presenting a demand of more than 13,800 beds by 2020. In 2014, Dubai spent \$3.5 billion on healthcare, of which the private sector accounted for 66.6 percent. From Virginia Economic Development Partnership – International Trade UAE Healthcare Industry 7 2012, the overall healthcare spending grew by 27.7 percent and that in the private sector increased by 37 percent.

The Global Cardiovascular Devices Market was valued at \$32.8 billion in 2018 and is forecast to grow at a modest 3.3 % CAGR between 2018 and 2026, culminating in 2026 global sales of \$68.2 billion.
