Very well work out, engaging, and with interesting and frontline talks. I enjoyed. 'Bravo' to the chair and the organizers of the event.

Luigi Marongiu

Conference Speaker

The conference was well prepared and organized to serve the intended theme, many thanks to the organizing team. The conference brought together scientists and researchers to share their research work regardless of travelling restrictions in this advent of SARS-Cov2. It was a great honored to participate and chair a session in this conference. I benefited a lot into every aspect of the topics presented during the conference. It is my hope that you will be able to continue to organize series of scientific E-conference as they unite researchers all over the world and omit time needed for travelling and other unnecessary costs. I highly recommend Scientists, young researchers and students to attend these conferences as there a lot to learn from esteem presenters and their interesting selected topics. It is my hope that the coming conferences will have more participants.

Stephene Shadrack Meena

Conference Chairman

No doubt that I participated in the webinar without having any prior knowledge of your organization, I was simply amazed by the the conduct of conference, participant's interaction & most importantly the content of the talks. I have attended over my medical career mostly live workshops, conference & few webinar but I can narrate this one as a very organized efforts. I must acknowledge the back state actors especially the organizers, moderators, IT personals & the ones dealing with the transcription. My testimonial will not be completed if I do not admire the continuous coordinating efforts by Mr. Wesley, the reason behind me atleast to come out of my cocoon to join this academic venture.

CANCER SUMMIT - TESTIMONIALS

The conference has been a great learning experience for me. I really appreciate the organizers for their promptness and approachability at all times. Initially, I had expressed difficulty with the payment mode but you simplified things by giving me an alternative payment option. All the communication was timely. The abstract acceptance letter, receipt of payment and conference certificate reached me on time to process things faster from my end. The telephonic contact added a personal touch to the entire event and ensured that things went smoothly.

Nidhi Rawat

Conference Speaker

I just wanted to send a quick note to say thanks to you and the whole team for the amazing job in making this conference happen. This is my first virtual conference experience and it was excellent. I didn't think I would like an online conference but I was wrong. I was able to enjoy the event since we were able to record our sessions ahead of time. This allowed me to attend and listen and learn more during the conference.

Nor Fazila Che Mat

Conference Speaker

It was great! Speakers were terrific; sessions were educational and entertaining with immediately applicable information. Organization was perfect. The conference was probably the most valuable 2 days I spent in 2020. Indeed my participation in this event will improve my professional performance.

I think the conference was very informative for Clinicians and Oncologists. For me as an Immunologist, it had less significance. But I should mention that I really enjoy participating in the conference, I learned a lot. Your coordination and program management was really admirable. The time management during the conference was good.
