About:

Dear Distinguished Scholars, Researchers and Colleagues,

The **3rd Edition Scholars World Congress on Cancer Research and Oncology (Cancer Science 2022)** will focus on structural and mechanistic insights into dynamic complexes acting in DNA repair, cancer vaccine, computational cancer biology and other cancer-relevant clinical trials on immuno-radiotherapy. Informative talks and poster sessions along with vibrant discussions will foster productive interactions, collaborations, and insights.

It is my great honor and pleasure from committee to invite you to join with a contribution to the Scholars World Congress on Cancer Research and Oncology during **November 14-16, 2022** at **Dubai, UAE**. The Conference will include Keynote speeches and Invited speeches which will be given by Distinguished Scholars and Experts from academic institutions and industry, and oral presentation by delegate and poster presentations by young junior participants. Devoted to the rapid development of Cancer Research and Therapeutics, the conference will bring together distinguished experts, researchers, scientist, scholars, and young students from different cultures and different countries, providing them with the opportunity to report, share, and discuss scientific questions, achievements, in these fields.

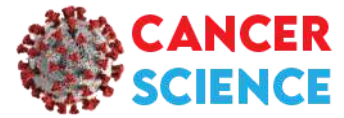

Scientific Sessions:

- Innovative Cancer Science: Translating Biology to Medicine
- Next Generation Cancer Models
- Tumor heterogeneity and Cancer Metastasis
- Antibody-based Therapeutics Against Cancer
- Cancer Metastasis
- Radiation Oncology
- Cancer Vaccines
- Gynecologic Cancer
- COVID-19 and It's Impact on Cancer Patients
- Cancer Discovery
- Cancer Metabolism
- Colorectal Cancer Progression
- Tumour Microenvironment
- Carcinogenesis
- Cancer Immunology & Immunotherapy
- Cancer Epidemiology
- Skin Cancers
- Computational Analysis of Cancer
- Immune Responses & DNA Repair - Cancer Fields
- Nanopore Sequencing of Cancer Genomes
- Cancer Genetics
- Biomarkers in Tissue and Blood
- Cancer Therapy & Treatments
- Organ-Defined Cancers
- Surgical Oncology
- Innovative Cancer Science: Better Outcomes through Research
- Cancer Diagnostics: From Research to Clinical Practice
- The Application of Clinical Proteomics for Precision Oncology
- Single-cell and Spatial Multiomics in Cancer Research
- Drug Resistance
- Cancer Prevention & Research
- Cancer Epidemiology
- Cancer Signalling

Reasons to attend:

Learn:

- Conference provides a great platform for knowledge sharing and help in research
- communities in learning new things in their areas of expertise.

Discuss:

- Enhance your creativity by discussing your work with experts in your field of
- study and bring together some of the strategists in your domain.

Network and Connect:

- Get more opportunities to network and grow by together elite
- performers in your industry onto a single stage.

Spread the impact:

- Community of accomplished professionals surely helps your impact
- and optimize your research goals.

Recognized:

- By showcasing your work in front of eminent researchers you can get
- recognized.

New tips & tactics:

- You can get to know tips which help you improve new approaches.

Have fun:

- You can have some connections and amazing friends and you can have
- some fun.

Who and Why should attend?

Who should attend?

- Professors, experts, scientists, directors, and university students in all tendencies of engineering, sciences
- Universities, study centers, and all research and educational institutes.
- All policy-making organs in engineering, sciences.
- Ministries, organizations, committees and staffs active in this area.
- Guild unions and non-governmental organizations in engineering, sciences.
- All consulting companies and executives in engineering projects.
- All policy-making organizations, departments, and organs in engineering, sciences.
- Companies, technical and engineering offices, contractors, mass constructors, and employers

Why should attend?

- Interact with Global Speakers
- Bridging the Gap Between Industry and Academia
- Gain a Global Perspective
- Understand Industry Gaps
- Present your Latest Research on Global Platform
- Grow Your Professional Network: Meet Old Colleagues and Make New Ones
- Find out About the Most Environmentally Sustainable Innovations
- Spreading Sustainable Materials Worldwide
- Share Your Experiences in Research, Teaching and Good Practice
