ABOUT THE CONFERENCE

We cordially invite you to our conference **World Nursing Science Conference (WNSC 2023)**. The conference will accentuate the ground-breaking spirit of enriching the nursing profession. The nursing conference presents the most innovative studies and research in the industry to give researchers, medical professionals, and academicians the most recent and cutting-edge evidence for optimum healthcare practices and safety.

There are 27.9 million nurses worldwide who work in the workforce. First and foremost, we would like to express our profound gratitude to all the nurses, clinicians, and medical personnel for their contributions to the country's enduring struggle against COVID-19. For all the sacrifices made for society, we are all forever indebted.

Nursing science is the corner-stone foundation of the health care industry. And over the years, the demand for the nursing kept rising to unprecedented proportions. Since the current nursing shortage necessitates many nurses. Hence, we believe it's crucial to discuss innovative advancements like monitoring outpatient therapy, highlighting professional status, enhancing patient health and their experience in hospitals, to ensure the highest level of medical safety.

We are persuaded that all nursing professionals will find this seminar to be extremely informative. Our objective is to fill the gaps in the current academic and scientific fields. To participate in the conference's most crucial conversations to date, grab your seat quickly.
