# ABOUT

San Francisco is a major city in California, the centrepiece of the Bay Area, well-known for its liberal community, hilly terrain, Victorian architecture, scenic beauty, summer fog, and great ethnic and cultural diversity. San Francisco has a mild climate, with cool, wet winters and dry summers. In most months, you can expect the high temperature to be in the upper 50s, 60s or low 70s degree Fahrenheit. San Franciscans are sophisticates whose lives hold full measures of such civilized pleasures as music, art, and good food. Tourism is a major source of income. The bridges, Coit Tower, the museums, the restaurants, Chinatown, North Beach, the Victorian mansions, crooked Lombard Street, and the dazzling Fairmont Hotel are major attractions; Fisherman's Wharf, however, is the most popular. The orange-red Golden Gate Bridge: pure suspension bridge, leading north to Marin County, was completed in 1937, has been called one of the Seven Wonders of the Modern World and is the first thing you see of San Francisco if driving in from the north. San Francisco International located about 10 mi south of the city is a major international airport.
