# About Rome

NOVEMBER 20-21  
**2024**  
ROME, ITALY

Rome is the capital city of Italy. It is also the capital of the Lazio region, the centre of the Metropolitan City of Rome Capital, and a special comune named Comune di Roma Capitale.

The Roman countryside, the Campagna, was one of the last areas of central Italy to be settled in antiquity. Rome was built on a defensible hill that dominated the last downstream, high-banked river crossing where traverse of the Tiber was facilitated by a midstream island. This hill, Palatine Hill, was one of a group of hills, traditionally counted as seven, around which the ancient city grew. The other hills are the Capitoline, the Quirinal, the Viminal, the Esquiline, the Caelian, and the Aventine.

Rome was the 14th most visited city in the world, with 8.6 million tourists a year, the third most visited city in the European Union, and the most popular tourist destination in Italy. Its historic centre is listed by UNESCO as a World Heritage Site.

Dear Organizers,

This conference brought together important researchers with topical and very interesting presentations.

Firstly, presentations addressed a series of topics of global interest regarding studies about different food products (e.g. cow’s milk, wheat bread, etc.), enzymes, fertilizers and current global issues (e.g. food alternatives, food security, etc.). Secondly, the conference organization was at a high level. The support from conference organizers was permanently

available and all the requests were resolved in the shortest possible time.

Congratulations for all! I want to thank you for all of your efforts and for giving us - the participants - a very good opportunity to share our research and to interact with each other. I hope that I will be available to be able to physically participate in the next conference!
