Vienna, Austria

ABOUT VIENNA :

Vienna is Austria's most populous city and its primate city. Additionally, Vienna has been called the "City of Music" due to its musical legacy, as many famous classical musicians such as Beethoven and Mozart called Vienna home. Vienna is also said to be the "City of Dreams" because it was home to the world's first psychoanalyst, Sigmund Freud. The city's splendid showcase of Austrian grandeur includes well-preserved palaces, museums, and beautiful city squares and gardens. The Hundertwasser Haus is one of Vienna's most unique and colorful buildings. It was designed by the Austrian artist Friedens Reich Hundertwasser, who believed that buildings should be works of art.
